

Qualifying Product List

Generated on 03/16/2026

Mitsubishi Electric Trane US is proud to have the vast majority of our products meet the highest efficiency and performance standards recognized in the United States. We provide this list as a means for consumers to easily reference specific product combinations and compliance with Energy Star and CEE Highest Tier rating criteria for 2025. We will continue to update this list to reflect new products and combinations as ratings come available. The information reflects updates as of the Generated On date above. Please continue to check back for the most up to date qualified products.

March 18, 2025

25C Federal Income Tax Credits for Qualifying Cooling and Heating Systems

Purchasers of qualifying Mitsubishi Electric, Trane® / Mitsubishi Electric, and American Standard® / Mitsubishi Electric HVAC products (referred to as Mitsubishi Electric Brands):

The 2022 Inflation Reduction Act extended and increased the federal tax credit for homeowners who install qualified high efficiency, energy saving products in a property serving as their residence in a calendar year from January 1st, 2023, and December 31, 2032.

Under Part II of IRS Form 5695, Energy Efficient Home Improvement Credit, an eligible taxpayer may claim 30% up to a cap of \$2,000 tax credit against costs of an eligible electric heat pump installation, where homeowner has a tax liability from the tax year during which a qualifying equipment installation was completed and made operational on their main home. Please refer to the IRS for further details on qualifications and filing instructions.

In 2025, qualifying heat pump systems must meet the CEE Tier 1 either Path A or Path B:

CEE Level	SEER2	EER2	HSPF2	COP at 5°F*	Capacity Ratio [~]
CEE Tier 1					
Path A	≥ 16.0	≥ 9.8	≥ 8.5	≥ 1.75	≥ 60% at 5°F/47°F
Path B	≥ 16.0	≥ 11.0	≥ 8.0	≥ 1.75	≥ 45% at 5°F/47°F

Mitsubishi Electric Brand HVAC products meeting the energy efficiency requirements listed above qualify for this tax credit. If you are eligible to claim credit for qualified HVAC equipment, you should retain a copy of this letter and the AHRI Certificate of Product Rating as part of your taxpayer's records, together with your receipt of purchase and installation. Please consult your professional tax advisor to determine what qualifies for a tax credit in your individual situation.

Mitsubishi Electric Brand systems with their respective ratings are certified and listed with the Air-conditioning, Heating and Refrigeration Institute (AHRI): <http://www.ahridirectory.org>. By searching for the AHRI Certified Reference Number corresponding to the qualified system, you can download the AHRI Certificate of Product Rating. If you have any difficulty finding this information on the AHRI Directory, please contact your contractor for assistance.

A list of qualifying equipment, and additional information on rebates, financing, and tax credits, is located on our website: <https://mitsubishicomfort.com/inflation-reduction-act>

A Qualified Manufacturer PIN# **E8X7** will be required by the IRS when applying for the 25C tax credit for 2025.

NOTE: The IRS is responsible for the implementation and administration of tax credits. Mitsubishi Electric Trane HVAC US LLC expressly disclaims all liability for damages of any kind arising out of a taxpayer's claim for an energy efficiency tax credit or the unauthorized alteration of the information listed in this letter.
